

Lumpkin County, Georgia

Date: December 31, 2015

Agenda Item: Disaster debris Contract Award (Place holder for regular meeting)

Item Description: Recommendation for award of the disaster debris and disposal contract.

Facts & Historical

Information: In 2011, as part of the Lumpkin County Debris Management Plan, Lumpkin County committed to contracting with two companies to provide assistance in the removal and disposal of storm debris resulting from a declared disaster. The initial contract was for 2 years and was renewed in 2013, 2014, and 2015. In order to meet FEMA requirements, the contract must be rebid for 2016. Staff released a bid package on the contract in November and will be receiving bids on January 8, 2016. Based on the bid results, staff will be recommending award of the contract to a contractor or contractors in the regular meeting on January 19th. The contractor will only be deployed in the event of a federally declared disaster. If declared, state and federal agencies will pay for most of the eligible costs incurred under this contract.

Potential Courses of Action: TBD

Budgetary Impact:

The contractor will only be deployed in the event of a federally declared disaster. If declared; state and federal agencies will pay for most of the eligible costs incurred under this contract.

Staff Recommendation:

Staff will revise this analysis with recommendations for award before the regular meetings.
